Sedation Certification

For Non-Anesthesia Providers

www.SedationCertification.com

Study to be a Certified Sedation Registered Nurse

Patient Safety Through Education and Communication

The Only Competency Based, Self-Paced, Sedation Certification for RNs available for viewing in all media types.

Sedation Certification is the benchmark for safe and effective sedation standardization and meets all criteria for Joint Commission, DNV, AAAHC and HFAP accrediting organizations.

Sedation Certification's mission is to certify that non-anesthesia sedation providers meet the standards for patient safety set by the Joint Commission and other healthcare accrediting organizations and to ensure that nurses are trained in the legal, ethical and controversial issues of moderate sedation

This comprehensive certification was developed for RN's. Through popular request it is also available to MDs, DOs, PAs, Podiatrists and Dentists.

Moderate Sedation Certification is a comprehensive competency training for non-anesthesia providers for safe, effective, timely, efficient, equitable, and patient centered care through the pharmacological reduction of pain and anxiety for medical and surgical procedures.

Non-anesthesia providers giving sedation are taught to give safe age-appropriate care according to the standards set by the Joint Commission, AAAHC, DNV and HFAP. Our goal is for sedation providers to achieve adequate sedation with maximum comfort and minimal risk to patients.

Sedation Providers minimize negative psychological responses by providing adequate sedation, analgesia and amnesia. Decrease agitation and improve cooperation during a procedure. Provide for rapid recovery and safe discharge. Facilitate improved technical performance of the procedure.

Medical Facilities increase safety and satisfaction by offering standardization across the medical institution's network of hospitals and clinics to meet accreditation competency standards.

The online course is available 24/7 and can be accessed from any remote location. Always available to fit your schedule.

Continuing Education Credits recognized by all states.

Healthy Visions an approved provider of continuing nursing education by the Alabama State Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation (ANCC). Approved for 10 CE Credits and 6 Pharmacology hours. Code # 5-133.

- ◆ Certification is valid two years.
- ◆ LPNs receive CE Credits only.
- ◆ Bi-Monthly Sedation eNewsletter.

Benefits of Facility Multiuser Agreement

- ◆ Research shows that standardization greatly increases patient safety and decreases law suits.
- ◆ Sedation Certification is competency based and perfect for the multi system facility.
- ◆ The Sedation Certification website and staff are available for information and consultation.
- ◆ Facility discount based on number of seats purchased.
- ◆ Meets current Accreditation Standards for hospital and surgery center non-anesthesia provider sedation
- ◆ Facilities receive the hard copy program for accreditation display
- ◆ Facilities receive access to State BON position statement on sedation.
- ◆ Facility savings include personalized scheduling for home study, after hours completion and travel expenses.

Moderate Sedation Learning Objectives

The Participant will be able to:

- ◆ Discuss the current scope of practice issues in the performance of sedation.
- ◆ List the difference between the three types of sedation and general anesthesia.
- ◆ Use tools to assess and monitor the patient
- ◆ Describe the nurse's role in patient consent for sedation.
- ◆ Discuss the medications and dosages used in sedation.
- ◆ Identify the side effects and contraindications of medications that suppress protective reflexes
- ◆ Discuss appropriate means of monitoring the cardiac and respiratory systems.
- ◆ Describe signs and symptoms of partial and complete airway obstruction.
- ◆ Discuss the significance of utilizing the ASA classification.
- ◆ Discuss the importance of documentations according to policy and standards.
- ◆ Integrate age-specific principles into the care of pediatric and geriatric patients undergoing sedation.
- ◆ Discuss discharge procedures for children and adults.
- ◆ Describe management of the most common untoward events of the sedated ventilated patient.
- ◆ Discuss the benefits of suggestions and biorhythmic music to the sedated patient.

Training Topics

Modules 1—3

- Scope of Practice
- Continuum of sedation
- Goals of safe sedation
- Protocols and Standards for Safe and Effective Sedation
- Accreditation
- Pre-Operative Sedation Assessment

Modules 4—6

- Airway Assessment
- Oxygen delivery
- Airway adjuncts
- Required Equipment
- Monitoring
- Pulse Oximetry
- Capnography

Module 7—8

- Medications
- Adverse Events
- Managing Complications

Module 9— 11

- Discharge Criteria
- Geriatric age specific considerations
- Pediatric age specific considerations
- Suggestion and Patient Sedation
- Q & A

Certified to meet the Joint Commission Standards for Safe Sedation

The Continuum of Care is:

Consciousness... Sedation... Deep Sedation... Anesthesia... Coma... DEATH

The goal of the nurse, and provider managing moderate sedation on this continuum of care is; "sedation".

What Our Students Say.....

- ◆ *This was a great course! Very informative! I plan on recommending this to our Hospital Director for the whole hospital to use. - Sondra J. Prestia*
- ◆ *I feel much more prepared to take the challenge of sedation requirements back to my ED. It's functioned as kind of a "gray area" I've gotten a lot of ideas for staff development. Thanks! - Mary Anne Patterson*
- ◆ *Being new in oral-maxillofacial surgery, I'm looking forward toward implementing the positive thoughts and ideas suggested in the course. I also feel more prepared to review and update our policy and procedure for conscious sedation. Additionally, I plan to join the AAMSN for continued support, references and collegial networking. Thank you for the great course!! This was worth the drive from 7 hours away. - Mary Wetter*
- ◆ *Excellent course! I learned very useful information for my RN position. Well presented, really kept my attention even though it was online. - Christina Norton*
- ◆ *Wonderful speaker. His total belief in patient care was nice and refreshing. Learned a lot and definitely interested in more courses from this speaker.-Susan Lombardo*
- ◆ *"You are a 10 in this presentation." I have been to classes for the last six years and I have learned more today that is on my level than the other classes I have attended. Thank you very much; this has been a great class. Connie Childers*
- ◆ *This course is very thorough and so knowledgeable for nurses giving sedation. I do sedation in the Operating Room and in the Emergency Dept and have taken other Sedation courses in my career. HOWEVER, I found the knowledge given in this video presentation to be all encompassing and feel that I am REALLY ABLE NOW to deliver this competency to my patients. Thank you for the certification process. Also, I could go in and out within my time frame and could always log on without difficulty from any computer.—Patricia Lillibridge*
- ◆ *I am so glad I took this course and became a member....I will now be working in an area that provides moderate sedation!!! When I interviewed for the job the MD was very impressed by this membership and certification :)))) VERY VERY impressed I have been a stay at home mom for the last 3 years and I am just now entering back into the field...when I knew I may be working in an area with moderate sedation I began researching ways to build my resume as well as refresh my education in this area. I believe that all nurses providing moderate sedation should be required to maintain this membership and certification. After taking the exam, I felt much more confident regarding medications and the do's and don'ts of this area. Just wanted to say thanks and that I'm Glad I found y'all - Anna Fortenberry Williams*
