This Sedation Certification training is the benchmark for safe and effective sedation standardization and meets all standards set by Joint Commission, Det Norske Veritas (DNV), Accreditation Association for Ambulatory Health Care (AAAHC) and Healthcare Facilities Accreditation Program (HFAP) accrediting organizations.

This comprehensive certification was developed for RNs, and is available to Physicians, DOs, PAs, Podiatrists and Dentists.

The Sedation Certification's CSRN™ course is a comprehensive competency training for non-anesthesia providers for safe, effective, timely, efficient, equitable, and patient centered care.

Non-anesthesia sedation providers are taught to give safe age-appropriate care according to the standards set by the Joint Commission, AAAHC, DNV and HFAP. The goal is for sedation providers to give moderate sedation with maximum comfort and minimal risk to patients.

Moderate and deep sedation providers minimize negative psychological responses by providing adequate sedation. The qualified CSRN™ will decrease agitation and improve cooperation during procedures, provide for rapid recovery, and ensure safe discharge of the patient.

The Certified Sedation Registered Nurse (CSRN™) credential is recognized by the American Association of Moderate Sedation Nurses (AAMSN). Currently CSRN™ is not currently recognized by the American Nurse Association (ANA) as a national certification.

The online course is available 24/7 and can be accessed from any remote location. It is designed to fit your schedule.

Continuing Education Credits are recognized by all states.

Healthy Visions is an approved provider of continuing nursing education by the Alabama State Nurses Association, and an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation (ANCC). Approved for 10 CE Credits and 6 Pharmacology hours. Code # 5-133.

Provider approved by the California Board of Registered Nursing. Provider # CEP 15997 for 10 Contact Hours.

Healthy Visions, a Continuing Education Company, designates the CSRN™ course a maximum of 10 hours of AMA PRA Category 2 credits.

The American Board of Certification for Gastroenterology Nurses (ABCGN) has designated the CSRN™ course as GI-Specific for 6.75 contact hours.

Sedation Certification is a Healthy Visions Company

The Sedation Course Includes:

- Online and USB formats: six hours of video lectures and 4-hour competency study.
- On-line and USB are videos of a live course.
- PowerPoint presentation and the competency study guide available on-line and for download in PDF.
- 10 Continuing Education Credits with certificate printable upon successful completion for nurses.
- Online 100 question exam; 80% is passing grade. Exam is randomized from a bank of 300 questions.
- Frameable Sedation Certification Certificate by mail.
- A one-year membership in the American Association of Moderate Sedation Nurses (AAMSN) with a certificate suitable for framing and a membership card.
- RNs receive the Certified Sedation Registered Nurse (CSRNTM) from the AAMSN.
- Certification valid for two years, and is renewable with 30 CE credits or by retesting.
- Bimonthly Sedation eNewsletter.
- LPNs receive CE Credits only.

Learning Objectives

Attendees should be able to:

1. Discuss the current scope of practice issues in the performance of sedation.
2. Use tools learned in the course to assess and monitor patients.
3. Discuss the medications and dosages used in sedation.
4. Identify the side effects and contraindications of medications that suppress protective reflexes.
5. Discuss appropriate means of monitoring the circulatory and respiratory systems.
6. Describe signs and symptoms of partial and complete airway obstruction.
7. Discuss the significance of utilizing the ASA classification.
8. Discuss the importance of documentation according to policy and standards.
9. Integrate age-specific principles into the care of pediatric and geriatric patients undergoing sedation.
10. Describe management of the most common untoward events for the sedated patient.

Facility Sedation Certification Benefits

- Facility wide standardization greatly increases patient safety and decreases lawsuits.
- Complies with TJC (The Joint Commission), AAAHC, NIAHO, DNV, and HFAP sedation standards for accreditation.
- Facility pricing is based on number of seats purchased and can include RN, PA, Physician, Dental and Podiatry.
- Facilities can choose the online or live course at either your campus or our campus.
- The on-line course is available on all mobile devices and does not have to be completed in one sitting. The participant can log on and off making it easy to complete the course at their leisure.
- The facility agreement is in effect for two (2) years from date of purchase. Individual certifications are good for 2-years from certification date.
- LPNs can receive CE Credits and certificate of completion (not Certification).
- Includes a one year complimentary membership in the American Association of Moderate Sedation Nurses (AAMSN)
- RNs receive the Certified Sedation Registered Nurse (CSRNTM) from the AAMSN.
- Facility will receive the entire program in hard copy which can be reproduced.
- The certification can be taken online with CE certificate available for printing.
- Approved for 10 Continuing Educations Credits for RNs and LPNs.
- Bimonthly Sedation eNewsletter for continuing education.
- The perfect way to ensure your facility and your sedation providers understand the laws of your state and Joint Commission Standards.
- Very economical for facilities certifying 10 or more RNs, PAs and MDs over a two-year period.
- Scheduling flexibility to eliminate travel and time off.

Training Topics

Modules 1—3

- Scope of Practice considerations for RNs
- Continuum of sedation
- Goals of safe sedation
- Protocols and standards for safe and effective sedation
- Accreditation
- Pre-operative sedation assessment

Modules 4—6

- Airway assessment
- Oxygen delivery
- Airway adjuncts
- Required equipment
- Monitoring vital signs
- Pulse oximetry
- Capnography

Modules 7—8

- Medications used in sedation
- Adverse events
- Managing complications

Modules 9— 11

- Discharge criteria
- Geriatric considerations
- Pediatric considerations
- Auto-suggestion and patient sedation
- Question & answer session

The Continuum of Sedation is:

Consciousness... Mild sedation... Moderate sedation... Deep sedation...

Anesthesia... Coma...

The goal of the nurse is "Moderate sedation."

What our students say...

- *This was a great course! Very informative! I plan on recommending this to our Hospital Director for the whole hospital to use. - Sondra J. Prestia*
- *I feel much more prepared to take the challenge of sedation requirements back to my ED. It's functioned as kind of a "gray area." I've gotten a lot of ideas for staff development. Thanks! - Mary Anne Patterson*
- *Being new in oral-maxillofacial surgery, I'm looking forward toward implementing the positive thoughts and ideas suggested in the course. I also feel more prepared to review and update our policy and procedure for conscious sedation. Additionally, I plan to join the AAMSN for continued support, references and collegial networking. Thank you for the great course!! This was worth the drive from 7 hours away. - Mary Wetter*
- *Excellent course! I learned very useful information for my RN position. Well presented, really kept my attention even though it was online. - Christina Norton*
- *Wonderful speaker. His total belief in patient care was nice and refreshing. Learned a lot and definitely interested in more courses from this speaker. -Susan Lombardo*
- *"You are a 10 in this presentation." I have been to classes for the last six years and I have learned more today that is on my level than the other classes*
- *I have attended. Thank you very much; this has been a great class. -Connie Childers*
- *This course is very thorough and so knowledgeable for nurses giving sedation. I do sedation in the operating room and in the emergency dept. and have taken other sedation courses in my career. HOWEVER, I found the knowledge given in this video presentation to be all encompassing and feel that I am REALLY ABLE NOW to deliver this competency to my patients. Thank you for the certification process. Also, I could go in and out within my time frame and could always log on without difficulty from any computer. -Patricia Lillibridge*
- *I am so glad I took this course and became a member...I will now be working in an area that provides moderate sedation!!! When I interviewed for the job the MD was very impressed by this membership and certification :)))) VERY VERY impressed. I have been a stay at home mom for the last 3 years and I am just now entering back into the field...when I knew I may be working in an area with moderate sedation I began researching ways to build my resume as well as refresh my education in this area. I believe that all nurses providing moderate sedation should be required to maintain this membership and certification. After taking the exam, I felt much more confident regarding medications and the do's and don'ts of this area. Just wanted to say thanks and that I'm Glad I found y'all. - Anna Fortenberry Williams*
